Methodology

Kline is unmatched in our ability to gather hard-to-get market and competitive intelligence with a high degree of confidence. Kline's market analysis approach places the principal emphasis on primary research techniques to ensure that the foundation of business intelligence and insight is accurate, current, and reliable.

During the course of field research, Kline's professional staff of industry experts conducted approximately 300 in-depth discussions and personal interviews with a wide range of knowledgeable industry participants and opinion leaders, including leading and niche cosmetic and toiletry manufacturers and marketers, distributors and suppliers, key retailers, and pertinent government agencies and trade organizations. This approach has proven to be the most effective and reliable approach to obtaining accurate market data, capturing expert insights, and identifying business opportunities.

In addition, this analysis is supplemented by secondary research drawn from a search of recent trade literature; Internet sources; an analysis of statistical data from government, industry, and trade associations and agencies; corporate financial reports and literature; store checks; and nonconfidential data from Kline's library and files.
