

# Biostimulants and Biofertilizers: Global Overview of the Market and Use

**Base Year: 2019**

**Published:**  
Q2 2020

**2<sup>d</sup> edition**

**Regional Coverage:**

This report provides a window into the growing market segment of the crop protection sector. It includes the technology, product descriptions, crop targets and, most importantly, an outlook with forecast for each market segment.

- Brazil      • Germany      • Italy      • Poland      • United Kingdom
- France      • India      • Japan      • Spain      • United States

## SCOPE

- This report covers sales of biostimulants and biofertilizers, including inoculant seed treatments products.
- Sales are segment into different end crop, non-crop, and seeds.
- Outlook for future technologies and products are being developed.
- Forecast to 2024

## Technologies included:

- Bacteria
- Bionutrients
- Botanical Extracts
- Chitosan
- Fungi
- Humic substances
- Inoculants
- Protein Hydrolysates including Amino Acids
- Seaweed Extracts
- Mixtures of Ingredients

Now including Biofertilizers

# TABLE OF CONTENTS

## Introduction

## Individual Reports

Each country report includes the following market segments:

- Field crops
- Fruit and Nuts
- Vegetables
- Specialty
- Non-Crop
- Seed Treatment (where applicable)
- Other (where applicable)

## End-Use Analysis

Each market segment contains the following information (some markets, where appropriate):

- Introduction
- Structure of the Industry
- Regulatory Framework
- Biological ingredients
- Market sales for each crop segment
- Sales by brand
- Sales by active ingredient
- Sales by Supplier
- Outlook for the crop segment and total market. Includes projected developments and future sales potential for the next five years

## INTERACTIVE DATABASE

This report includes an interactive database which allows users to customize data to fit their needs.

## REPORT BENEFITS

This report serves as an excellent resource for any organization interested in the emergence of the biostimulant and biofertilizer markets, its technologies, products, and key companies behind its development. Specifically, it assists subscribers by providing:

A highly reliable and independent assessment of current brand sales, emerging technologies, and company positions

A look at estimates sales by brand, active ingredient, and supplier for each country and crop segment covered

An interactive database which allows manufacturers and marketers to refine data to fit their needs

## METHODOLOGY

Kline's approach places principal emphasis on primary research techniques to ensure that the foundation of business intelligence and insight is accurate, current, and reliable. Building on our 60-plus years in the business and leveraging our worldwide network of offices, our teams of seasoned professionals draw upon pragmatic industrial and commercial experience to understand and interpret global impacts and local perspectives.
